**IN THE MATTER OF REIMBURSING THE GENERAL COUNTY FUND FOR  
ONE HALF OF THE TAX COLLECTOR'S SHARE OF THE MONTHLY  
SUPPORT FEE WITH DATA SYSTEMS MANAGEMENT**

---

There came on this day for consideration the matter of reimbursing fund #001, General County Fund for one half of the tax collector's share of the monthly support fee with Data Systems Management.

**TO** All Tax Collectors and Assessors  
**FROM** Janet Baird Extension Instructor  
**SUBJECT** 2012 Tax Collector Program

I am excited to announce the schedule for the upcoming Tax Collector Certification Program that will be offered in August and September. This new certification program is the outcome of the education committee of the Mississippi Assessor and Collector Association. Mississippi Code 27-1-51 charges the Office of the State Auditor to establish and implement the Mississippi Tax Collectors Education and Certification Program. The Center for Governmental Training and Technology is responsible for administration, education, and examination of the program.

The program has three levels of certification and that can be obtained: Collector of Revenue (CR I), Collector of Revenue (CR II), and Mississippi Collector of Revenue (MCR). Each county with less than 15,000 parcels is required to have a minimum of 2 Collectors of Revenue I or 3 Collector of Revenue I for counties with more than 15,000 parcels. This year the program will start with the Collector of Revenue (CR I). Certification courses for the additional levels of certification will be added each year.

Enclosed in this packet you will find information pertaining to the 2012 Collector of Revenue (CR I) certification course. In an effort to streamline the registration process the Collector of Revenue registration will be online. There is a link to the online registration form. All you have to do is control click on the website and it will take you to the form. After you complete the form it will send you an online confirmation that you can print as your receipt and your invoice for the registration fee. If you do not have access to the internet or have problems with the online form please complete the attached form and mail to our office. If you have any questions about this new registration process or the program in general, please contact Jason Camp or me at 662-325-3141 or [janetb@ext.msstate.edu](mailto:janetb@ext.msstate.edu) or [jasonc@ext.msstate.edu](mailto:jasonc@ext.msstate.edu).

Clay County Board of Supervisors  
Attention Amy Berry  
P O Box 1815  
West Point, MS 39773

Dear Distinguished Members of the Clay County Board of Supervisors,

We received a notice from the Mississippi Department of Revenue stating that our homestead exemption (parcel #083B411E 0150000) has been disallowed due do Keith's not being a resident of the state of Mississippi

Keith is an officer in the U S Air Force who has served for 21 years, including deployment to Afghanistan. Because of the nature of military life and the multiple moves it requires, members of the military are often given dispensation in regard to residency requirements so they don't have to establish new residency every two to three years. Although Keith's tax return states that he is a resident of New Hampshire, where he began his military career, he proudly calls West Point MS, home and will be officially retired here on June 15 2012. His residency will be changed at that time to the state of Mississippi.

We have owned our home here since 2006 and own no other homes.

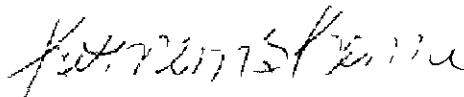

Wife, Kathy Kenne is a 17-year resident of Clay County and owns a business here – Quest Group LLC. Kathy has been a lifetime resident of Mississippi and has paid state income tax her entire adult life. In addition her company pays regular taxes for its employees.

We would respectfully request that this disallowance for homestead exemption be revoked. We have paid our taxes fully and on time and plan to continue to do so as we look forward to contributing to the further growth of our community.

Very respectfully,

Lt Col R Keith Kenne

Re Lease-Purchase of Equipment by  
Caly County, MS  
Schedule No: 008 to Master Lease No 7073

Ladies and Gentlemen

Pursuant to your request, we hereby render the following opinion regarding the Equipment Lease-Purchase Agreement (the "Agreement") between Clay County, Mississippi (the "Lessee") and the Board of Supervisors (the "Governing Body") and BancorpSouth Equipment Finance, a division of BancorpSouth Bank (the "Lessor") dated June 10, 2004

We have acted as counsel to the Lessee and the Governing Body with respect to certain legal matters pertaining to the Agreement, and to the transactions contemplated thereby. We are familiar with the Agreement and we have examined such agreements, schedules, statements, certificates, records, including minutes of the Governing Body of the Lessee and other instruments of public officials, Lessee and other persons as we have considered necessary or proper as a basis for the opinions hereinafter stated.

Based on such examination, we are of the opinion that:

1. Lessee and the Governing Body have full power, authority and legal right to execute, deliver and perform the terms of the Agreement. The Agreement has been duly authorized by all necessary action on the part of Lessee and the Governing Body and any other governing authority and does not require the approval of or the giving of notice to any other federal, state, local or foreign governmental authority and does not contravene any law binding on Lessee or the Governing Body or contravene any indenture, credit agreement or other agreement to which Lessee or the Governing Body is a party or by which it is bound.

2. The Agreement has been duly authorized, executed and delivered and constitutes a valid and binding obligation of Lessee and the Governing Body enforceable in accordance with its terms.

3. All required procedures for execution of the Agreement, including competitive bidding if applicable, have been complied with and all rentals will be paid out of funds which are legally available for such purposes.

4 With respect to the tax-exempt status of the interest portion of rental payments under the Agreement, under present law

(a) The Agreement is a conditional sales agreement which qualifies as an obligation for purposes of Section 103(a) of the Internal Revenue Code of 1986, as amended (the "Code"), and Treasury Regulations and rulings hereunder

(b) The interest portion of the rental payments under the terms of the Agreement is exempt from federal income taxation pursuant to Section 103(a) of the Code and the Treasury Regulations and rulings thereunder

5 There are no pending or threatened actions or proceedings before any court, administrative agency or other tribunal or body against Lessee or the Governing Body which may materially affect Lessee's or the Governing Body's financial condition or operations, or which could have any effect whatsoever upon the validity, performance or enforceability of the terms of the Agreement

This opinion is being furnished to you in connection with the above-referenced transaction and the opinions expressed herein are for the sole benefit of, and may be relied upon by the Lessor and its assigns and are not to be delivered to or relied upon by any other party without our prior written consent

Sincerely

QUESTION AND ANSWER CONCERNING BID #10-074 TRUCK, AS FOLLOWS

The language contained in this addendum supersedes any conflicting language in the referenced bid package.

**Question —** Empire Truck Sales, LLC would like to protest the bid specifications on this bid. Specifically the note on the engine that states the following

"If a 2010 emissions engine has to be bid it must be without additional exhaust hardware or the need of an exhaust fluid."

The request would unnecessarily restrict competition as the ONLY manufacturer that does not use exhaust fluid is International. All major engine and truck manufacturers have decided to go with Urea Injection as the best and most efficient method to meet the EPA's requirements for 2010 emissions EXCEPT International with their Maxxforce line of engines. International is only able to meet the EPA's requirements by using credits earned in the past and used toward their current engine that is NOT certified by EPA at this time.

I have attached supporting document to substantiate this claim.

**Answer. —** MDOT has done extensive research on the different methods that are being used to satisfy the EPA's 2010 Emission requirements. Our present fleet of trucks with a greater than 20 000 lb GVW is approximately 70% International. All of these were purchased through MDOT bids or through the state Office of Purchasing and Travel contracts. The 2009 engine packages in our International trucks was their first generation Exhaust Gas Recirculation (EGR) system and has worked well with no known problems. Their system for the 2010 emissions is called the Advanced Exhaust Gas Recirculation (EGR). This is not a new and untested system. All of our spare parts, specialty tools, and diagnostic training are unchanged. Also, the DT and Maxxforce 13 engine families have both received EPA Certification in March of this year.

Selective Catalyst Reduction (SCR) technology in on-highway vehicles presents an unknown, estimable element of acquisition cost, operating cost, infrastructure costs and maintenance costs. There is currently no wide-area distribution system for urea. The cost of the additive is unknown at this time, and is a volatile economic commodity under the best of circumstances, being a derivative of natural gas, and being in a supply/demand driven market sector

Environmentally, no one knows at this time what issues on-site storage and disposal of liquid urea will entail. We are not aware of any regulations currently in place to provide guidance in the handling and management of this specific product, or in the disposal of contaminated or deteriorated liquid urea, which would be a hazardous material.

Other manufacturers are working overtime to develop engines which do not rely on SCR-DEF technology, even as their multi-million dollar public relations programs promote what is essentially becoming obsolete technology

Many in the scientific, research and manufacturing sectors are convinced that SCR emissions control using urea injection is an obsolete technology even before the first SCR-equipped truck rolls onto an American highway in 2010. Some European manufacturers are already moving away from the DEF-based system, toward newer technology. In the United States, Argonne National Laboratories, GE-Tenneco and Eaton Corporation are already developing the next generation of emissions eradication technologies, eliminating the need for urea injection. If we invest in trucks with this technology, we face the very real probability that we will be holding obsolete, non-saleable inventory at the end of the equipment life-cycle. If this system becomes obsolete during the life-span of these trucks there will be no resale market for them. There would be no economically viable retrofit option to upgrade these vehicles to a marketable technology

Based on the foregoing information, it is our opinion that at this point in time it is not in the best interest of the Mississippi Department of Transportation to procure trucks with the Selective Catalyst Reduction (SCR) urea injection system
